CONTENTS VOLUME 17 (1991)

Vol. 17, No. 1 (September 1991)

Preparation of biodegradable microspheres and microcapsules: 2. Polyactides and related polyesters
R. Arshady (U.K.) 1
Influence of formulation methods on the in vitro controlled release of protein from poly(ester) microspheres
H.T. Wang, E. Schmitt, D.R. Flanagan and R.J. Linhardt (U.S.A.) 23
Preparation and evaluation of biodegradable thermoresponsive microspheres
I. Nozawa, Y. Suzuki, S. Sato, K. Juni, K. Sugibayashi and Y. Morimoto (Japan) 33
Sustained transdermal delivery of zidovudine via controlled release of penetration enhancer
T. Seki, T. Kawaguchi, K. Juni, K. Sugibayashi and Y. Morimoto (Japan) 41
The effect of rate of evaporation on the coat structure of ethylcellulose microcapsules
M.G. Moldenhauer and J.G. Nairn (Canada) 49
Stability of atriopeptin *III* in poly(D,L-lactide-co-glycolide) microspheres
R.E. Johnson, L.A. Lanaski, V. Gupta, M.J. Griffin, H.T. Gaud, T.E. Needham and H. Zia (U.S.A.) 61
Diffusion of drug in acrylic-type pressure-sensitive adhesive matrices. I. Influence of physical property of the matrices on the drug diffusion
T. Kokubo, K. Sugibayashi and Y. Morimoto (Japan) 69
The role of polyelectrolytes in the permeability control of insulin: behavior of poly(*N*-acryloyl-glycine) grafted on porous cellulose membrane
R. Barbucci, M. Casolaro and A. Magnani (Italy) 79
Biodistribution of trans-1,2-diaminocyclohexane-trimellitato-platinum(II) attached to macromolecular carriers I. Poly(hydroxyethyl-D,L-asparagine) carrier
M. Filipová-Vopršálová, J. Drobník, B. Šrámek and J. Květina (Czechoslovakia) 89
Studies on polypeptide drug delivery systems: tissue distribution of immunoglobulin G conjugated with lecithin
Y. Mizushima and R. Igarashi (Japan) 99
Alginate controlled release formulations of metribuzin
A.B. Pepperman, J.-C. Kuan and C. McCombs (U.S.A.) 105
Herbicide containing methacrylates: synthesis, polymerization and release investigation
A. Rehab, A. Akelah, R. Issa, R. Solaro and E. Chiellini (Egypt, Italy) 113

Book Review 123
Calendar 125

Vol. 17, No. 2 (October 1991)

Contemporary approaches in aerosolized drug delivery to the lung
P.K. Gupta and A.J. Hickey (U.S.A.) 127
Drug release from electric current sensitive polymers
I.C. Kwon, Y.H. Bae, T. Okano and S.W. Kim (U.S.A.) 149
Pulsed mode constant current iontophoretic transdermal metoprolol tartrate delivery in established acute hypertensive rabbits
C.A. Zakzewski and J.K.-J. Li (U.S.A.) 157
Modelling of drug release from pellets coated with an insoluble polymeric membrane
I. Husson, B. Leclerc, G. Spenlehauer, M. Veillard and G. Couarraze (France) 163
Controlling the swelling characteristics of temperature-sensitive cellulose ether hydrogels
D.C. Harsh and S.H. Gehrke (U.S.A.) 175
Polyalkylcyanoacrylate nanoparticles as drug carrier: present state and perspectives
P. Couvreur and C. Vauthier (France) 187
In vivo assessment of salmon calcitonin sustained release from biodegradable microspheres
K.C. Lee, E.E. Soltis, P.S. Newman, K.W. Burton, R.C. Mehta and P.P. DeLuca (U.S.A.) 199

Book Reviews 207

Calendar 215

Vol. 17, No. 3 (November 1991)

Polymer-coated liposomes: stability and release of ASA from carboxymethyl chitin-coated liposomes
C. Dong and J.a. Rogers (Canada) 217
The influence of crystalline morphology and copolymer composition on drug release from solution cast and melt-processed P (HB-HV) copolymer matrices
S. Akhtar, C.W. Pouton and L.J. Notarianni (U.K.) 225
Development of implantable antitumor devices based on polyphosphazenes, II
J.H. Goedemoed, K. de Groot, A.M.E. Claessen and R.J. Scheper (The Netherlands) 235
Development of injectable antitumor microspheres based on polyphosphazene
J.H. Goedemoed, E.H.G. Mense, K. de Groot, A.M.E. Claessen and R.J. Scheper (The Netherlands) 245
Synthesis and antitumor activity of α-1,4-polygalactosamine and *N*-acetyl-α-*1,4*-polygalactosamine immobilized 5-fluorouracils through hexamethylene spacer groups via urea bonds
Y. Ohya, T.Z. Huang, T. Ouchi, K. Hasegawa, J. Tamura, K. Kadowaki, T. Matsumoto, S. Suzuki and M. Suzuki (Japan) 259
Mechanical and drug-release properties of atenolol-Carbomer hydrophilic matrix tablets
B. Pérez-Marcos, R. Iglesias, J.L. Gómez-Amoza, R. Martinez-Pacheco, C. Souta and A. Concheiro (Spain) 267
Influence of injection volume on the release kinetics of liposomal chloroquine administered subcutaneously or intramuscularly to mice
F. Kadir, W.M.C. Eling, D.J.A. Crommelin and J. Zuidema (The Netherlands) 277
Liposomal drug delivery: thermodynamic and chemical kinetic considerations
R. Margalit, R. Alon, M. Linenberg, I. Rubin, T.J. Roseman and R.W. Wood (Israel, U.S.A.) 285
